# WE POWER CHANGE

Powered by a tech-enabled platform and coaching service that is pioneering a new era of change, we protect public safety through ensuring positive change.

The Adult Reentry Program helps individuals successfully transition from prison to home by building essential skills, fostering confidence, and preparing them for life success. The program ensures they are supported throughout the reentry process and for six months after returning home, empowering them to create a stable and positive future.

- It is strength-based and connects people to relatable stories within a safe and secure small group
- It uses the power of applied content, personal narrative and strength-based feedback to power life change
- It includes integrated growth plan, shareable transcripts, and admin dashboard for managing growth with full accountability

## WE TAKE CARE OF GROWTH

### Anytime Anywhere Platform

Officers have insights, but we run the programs from intake to transition with office ensuring criminogenic needs are met and protective factors are grown.

Youth grow in safe and secure groups

We create private groups with only individuals on your caseload or unit. All data is safe and secure with settings tailored to your group needs. Your private groups exist at any level, such as one-per-officer or based on topic such as substance usage.

Members pursue growth journeys

Adults level-up in protective factor journeys with feedback from our trained growth specialists. They use devices they already have, or we provide secure solutions. AI, game meters, and social validation is used to motivate personalized growth.

You receive full data transparency

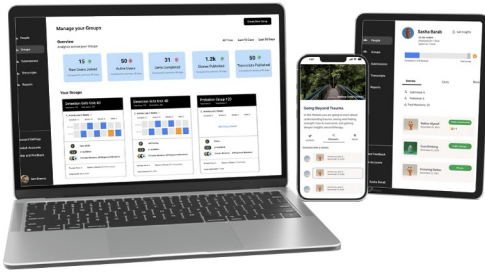

Your staff receives up-to-the-minute data the entire time. Staff can use this data, along with AI insights, to provide supportive feedback, manage growth, and share with families. Departments view actionable data at level of user, group, or organization.

## PROGRAM IMPLEMENTATION

The program begins on the first month of incarceration. We do a growth intake, either with online coach or AI, in which needs are assessed, a personalized plan is created, and they are onboarded to the program. Then, the justice-involved individual is supported from incarceration through re-entry:

- 1 Protective Factor Journey** – the individual logs into our safe and secure platform on any available device and completes the expected Modules, receiving strength-based feedback from our staff and earning two Certificates.
- 2 Re-Entry Journey** – as they are preparing for re-entry we do another virtual intake, reviewing their protective factor growth and assessing their re-entry readiness. They then over the first 30-45 days complete the re-entry journeys, again with strength-based feedback and support from our staff. Mentoring sessions are also available.
- 3 Life Success Journey** – Six months after re-entry, we support another live session to review their re-entry and assign their life success journey, now focus on career, relationships, finances, and other life success topics. They complete this final journey

Your staff have access to a comprehensive dashboard that offers AI-driven insights, tracks progress in real-time and provides data transparency to your staff across all 3 journeys.

# GETTING STARTED

## ANYTIME, ANYWHERE PERSONALIZED CARE

We build a customized platform with private groups tailored to your needs, managed by your staff or ours. Groups can be organized by officer, unit, or topic for seamless support from start to finish. Members are then assigned to groups where they experience anytime, anywhere, personalized care from intake to outtake.

You decide group structure, and which programs are relevant to these groups.

Individuals are assigned to groups and supported from intake to outtake with personalized care.

You have oversight, transparency, and AI insights through our champion dashboard.

## BEHAVIORAL CHANGE FRAMEWORK

Grounded in our behavioral change framework, every person receives the same **quality of care** from intake to outtake. Growth is supported by trained coaches providing strength-based feedback and personalized care, using evidence-based practices enhanced by AI, to ensure quality and consistency of care.

## HOW WE INTEGRATE

- 1 White-Label Platform Setup.** We start you with a customized, county-specific instance of the platform branded for your organization, with private groups based on your organizational structures. Programs can be assigned to specific groups or individuals, ensuring tailored and secure access.
- 2 Each Person Assigned to Our Care Receives:**
  - a Individual Registration and Intake.** Participants are registered within designated groups and gain access to relevant programs. Most begin with an intake meeting, led by our staff or yours, to create a personalized plan.
  - b Anytime, Anywhere Platform Support.** Participants use the platform to complete targeted modules, connecting with peer stories, levelling up their skills, and receiving strength-based feedback. Using our AI-enhanced coaching dashboard, you can monitor progress, provide support, and access real-time insights.
  - c Completion and Transition Planning.** Participants earn downloadable certificates for milestones achieved. An AI-enhanced, shareable transition plan highlights accomplishments and outlines next steps to ensure success.
- 3 Ongoing Staff Access and Reporting.** Your staff and organization have continuous access to the coaching dashboard to track progress, provide support, and generate reports at the individual, group, or organizational level.
